

Dimensions Ford 429/BOSS429/Shelby Interchangeable 351C 6V Bottom Plate  
Back to Back Carb 5 3/16 inches  
Back Carb to Center Carb 4 7/8 inches  
Center Car to Front Carb 5 3/8 inches  
Back carb to Front Carb 10 1/4 inches  
Bottom plate 21 inches long and 10 inches wide  
Inside Height for "D" Shape is 2 5/8

**Master D Shape**

- The Master D Shape inside height should be slightly less to 2 5/8 inches tall from the 2 7/8 I had you adjust them to.
1. The Master D Shape widest inside dimension needs to be slightly bigger to 5 inches from 4 7/8 inches I gave you originally.
  2. The Master D Shape thickness of diameter space between the inside line and outside lines needs to be 1/2 inch wide versus the current width which is slightly less.
